Supplying Dental Engineers

For all your dental engineering parts

The advertisement features a central image of a dental handpiece with 'DGI' and 'CE0413 1519' markings. Surrounding it are various components: a large circular mirror, a brass fitting, a pressure gauge on a white tank, a solenoid valve, a control switch with a cable, a flexible hose, a control unit with a pressure gauge, and several small connectors and fittings. The background is a gradient of teal and blue.

Introduction

Drilltex was founded by Mike O'Donoghue over 20 years ago, supplying Dental Engineers throughout the UK and Ireland, offering a wealth of Dental Engineering Parts from the Obvious to the Obscure, since we took over from Mike in 2013 our aim has been to continue to offer you First Class Service and Quality you can rely on at all times, with competitive prices.

Throughout the catalogue you will find new products and the more traditional type you expect from Drilltex, including the New A-dec Manufactured Parts offered from DCI. We have endeavoured to provide you with a User friendly Catalogue, broken down into sections and Categories, colour coded to assist you in finding what you need quickly and easily. We have also simplified our products offering with the use of "DRX" Part Numbers, these are now set and will not change into the future. New additions will slot into their particular category with a bespoke DRX Number for that Category/ Section. Again making it easier for you.

A Unique Aspect of Drilltex and a thing that many of you may or may not know, is that instead of us just receiving product from our Suppliers and sending them straight out to you. We have always prided ourselves on giving you value for money, for example every syringe we send out to you has not only been Inspected & tested by the manufacturer but has also been unpacked, inspected and pressure tested in our unique pressure testing department. The Reason for this, is so that we know the Syringes we send out

to you meet our exacting standards, and giving you the reassurance that it will work first time, every time allowing you to have the confidence in us as your Dental Parts Supplier. We apply the same attention to Detail to our Clean Water Bottle Kits and Cuspidor Drain Valve Kits we supply you. As in the past, we continue to meet your needs and requirements to exceed your expectations of us.

We continue to offer First Class Service with Quality Products, Sensibly Priced "always". If you need a part urgently, just tell us what you need and we will do our utmost to deliver. You will also find on our Website a PDF downloadable version of the catalogue for your smart phones and tablets, please keep an eye out for it.

So if you can't find it, please ask we will do our best to help you!! We are only a phone call, Email or fax away...

We would like to thank you for your continued support and hope you enjoy our new catalogue and website.
